

Mod. Lame S2: 18-arm chandelier in solid brass and opaline glass
Sphere Φ 20 cm. Chandelier Φ 78 cm. Fixture height 70 cm

“Fotone Design” was founded by two Italian mechanical engineers who share a profound passion for interior design and the timeless elegance of mid-century modern style. The signature “Lame” collection is defined by sleek, refined lines and premium materials such as solid brass and opaline glass, exuding understated sophistication. Each piece stands out for its innovative engineering: blade-like elements interlock seamlessly, relying solely on gravity, with no screws required. This harmonious balance between precision and artistry embodies the very essence of design.

Fotone Design is dedicated to creating exclusive, limited-edition pieces handcrafted entirely in Italy, where every detail is meticulously perfected. A homage to the iconic Italian lighting designs of the mid-20th century, the brand reinterprets this legacy with a bold, contemporary spirit, offering timeless creations that resonate deeply with discerning collectors and design enthusiasts.

NEAR AND SUSPENDED WORLDS SHAPED BY ESSENTIAL FORMS – BALANCE OF FORCES – THE BEAUTY OF SIMPLICITY – A BLEND OF TECHNIQUE AND EMOTION – MODULAR ASSEMBLY ADAPTED TO THE ENVIRONMENT – ART SUPPORTED BY ENGINEERING – A CONTEMPORARY REINTERPRETATION OF VINTAGE FORMS.
